

ATAQ HOSPITAL .. ALIVE AGAIN!

April 2019/ Shabwah: Funded by the Yemen Humanitarian Fund (YHF), YFCA has conducted a full-scale renovation/upgrading for the facilities and equipment of the Ataq General Hospital in Ataq district of Shabwah governorate, Yemen: three neonatal-incubators were added to the OB/GYN dept, installation of an incinerator, re-networking the hygiene facilities; in addition to equipping the respective departments of the hospital with state-of-art medical equipment/products. An inpatient in the hospital reflected on the recent face-lift: "I am proud of the new face of the hospital [in my town], I have been admitted to this hospital for six months now but only recently I can see the improvement in all parts of the hospital including the [new equipment] provided and even for the improved hygienic status of toilettes and cleanliness of our bed linens; I am glad that there is still change agents in our lives!"

Project: Integrated Health and WASH response to Famine risk areas in Ataq, Jehaf and Al Qabbaytah districts. YHF#10368. 15/10/2018-14/08/2019.
